

JERRY WANG

Healthcare Integration Analyst | HL7 / API Integration

ABOUT ME

Healthcare Integration Analyst with 5+ years of experience designing, building, and supporting digital health integrations across HL7, REST APIs, ESB platforms, and InterSystems IRIS/Caché environments. Experienced in clinical system integration, production support, interface design, API development, message routing, deployment coordination, and technical documentation. Certified in HL7 and InterSystems IRIS, with experience across ObjectScript, Python, SQL, MuleSoft, cloud platforms, CI/CD, Atlassian tools, and AI-assisted development workflows.

EXPERIENCE

Senior Software Engineer, 11/2023 - Present

Sonic IT - Sonic Healthcare

Sydney, NSW

- Design, build, and support healthcare integrations across core pathology systems, external healthcare providers, and downstream clinical platforms.
- Develop and maintain HL7 and REST API interfaces, including message routing, transformation, validation, and production troubleshooting.
- Work with InterSystems IRIS/Caché ObjectScript to support pathology workflows and system-to-system messaging.
- Analyse business and technical requirements, prepare design documentation, and coordinate implementation across application, integration, and vendor teams.
- Investigate production incidents, message failures, API issues, and data flow problems across healthcare integration environments.

SKILLS

• Integration & Healthcare

HL7 v2, REST APIs, ESB, message routing, interface design, production support, clinical system integration

• Platforms

InterSystems IRIS, Caché/ObjectScript, Ensemble, MuleSoft

• Development & Data

ObjectScript, Python, SQL, JSON, XML, API troubleshooting

• AI-Assisted Software Development

Claude Code, Codex, Gemini CLI, prompt design, workflow automation, agent-based development workflows

• Tools & DevOps

Git, Bitbucket, Jira, Confluence, Postman, VS Code, CI/CD, deployment packages

Integration Analyst, 10/2022 - 11/2023

Integration Developer, 04/2020 - 04/2022

Core Clinical System Renewal Program (CCSRP)

Northern Territory Government, Darwin, NT

- Designed, built, and supported ESB, HL7, and REST interfaces for core clinical systems across NT Health environments.
- Translated integration requirements into routing logic, interface designs, technical documentation, QA support, and deployment activities.
- Developed message routing, transmission logic, deployment packages, source control processes, automation testing support, and production monitoring for public health systems.
- Received People's Choice Award for public health system service delivery.

Integration Developer, 04/2022 - 10/2022

Student Digital Experience Program (SDX)

Charles Darwin University, Darwin, NT

- Analysed integration requirements across finance, HR, payroll, and student management systems.
- Designed and built MuleSoft and TechnologyOne integration solutions, including ETL and real-time API messaging.

EARLY EXPERIENCE & PERSONAL PROJECTS

- **InterSystems Internship (2019-2020):** Developed a cloud-based automation solution for TrakCare and gained hands-on experience with Azure, AWS, GCP, Docker, containers, and cloud-hosted environments.
- **Charles Darwin University Internship (2019):** Designed and implemented a Tier 0 automated phone answering workflow for the university help desk using Upwire and API-based automation.
- **AI Agent Workflow Lab:** Maintained a personal OpenClaw/WSL2 AI-agent environment using Claude Code, ChatGPT/Codex, local gateway tooling, and workflow automation.

CERTIFICATIONS

- InterSystems IRIS Core Solutions Developer Specialist
– InterSystems
- HealthShare Health Connect HL7® Interface Specialist
– InterSystems
- Azure Fundamentals
Azure Data Fundamentals
Azure AI Fundamentals
– Microsoft Certified

EDUCATION

Bachelor of Information Technology

2018-2020

Charles Darwin University

Darwin, NT

Certificate IV in Business

2017-2018

Charles Darwin University

Darwin, NT

Certificate III in Business

2016-2017

Charles Darwin University

Darwin, NT
